Forecast For The United Kingdom
Issued by Met Office Exeter
at 1600 on Thursday 18 Mar 2021

++ Valid for broadcast between 1800 and 0600

Headline:
Quiet but often cloudy weather over the next few days.

This Evening and Tonight:
Many areas rather cloudy this evening and overnight, cloud thick enough for some patchy drizzle at times too. Clear spells and chilly for parts of western UK and like a last night a few fog patches possible here.

Friday:
Many areas seeing a good deal of cloud, and also some patchy drizzle about, mainly to begin with. Brighter across eastern and southeastern England and western Scotland.

Outlook for Saturday to Monday:
Often quite cloudy, but most places remaining dry each day. The sunniest locations being across southern areas on Saturday, then northeastern areas by early next week.
